EDUCATION

B. Tech in Computer Science and Engineering   *2021 - 2025*
Dr. B. R. Ambedkar National Institute of Technology, Jalandhar   **8.01 CGPA**

EXPERIENCE

GroVr Testing *SDE Role*   Jan 2023 to Present

- Collaborating with the development team to implement design concepts and features into front-end side of the product.
- Developing interactive elements for enhanced user experience and engagement.
- Coordinating with cross-functional teams for comprehensive testing and prompt issue resolution.

Jolly Soothing Era Foundation   *Front-End developer*   Sept 2023 - Oct 2023

- Led the development of the organization's website design, creating a component library for consistency. Used Next.js and Tailwind CSS to implement responsive and visually appealing front-end pages.
- Collaborated and contributed to the content management system(CMS) integration using Sanity.IO to streamline data management and website updates.

PROJECTS

Spotify music streaming platform

Developed the Spotify music streaming project using Next.js, NextAuth, Spotify API, Vercel and Tailwind-CSS providing users with a music streaming platform similar to Spotify. Users can log in their Spotify accounts, browse a vast library of songs and albums, create and manage playlists, and enjoy a seamless music streaming experience.(GitHub) (Live)

Gradify Figma Plugin

Developed Gradify, a Figma plugin leveraging Figma API, TypeScript, HTML, CSS, and JavaScript to simplify custom gradient creation. Published on Figma community with 2000+ users, 30+ Likes and many comments. (Figma) GitHub

SKILLS
